

SYSTEM VULNERABILITY REPORT

4 High Severity
6 Medium Severity
4 Controls Already OK

DecodeLabs Cybersecurity Internship · Cyber Security Project 4
Audited System: Windows 10 Pro · Build 19045 / 22H2 | Assessment: Blue-Team Host Security Audit

1 FLAWS FOUND — The Diagnosis			
ID	Vulnerability Finding	Area	Severity
V-01	Faizan account has no password requirement	Identity & Auth	MEDIUM
V-02	Minimum password length = 0 characters	Identity & Auth	HIGH
V-03	Account lockout threshold = Never	Identity & Auth	HIGH
V-04	No password history maintained	Identity & Auth	MEDIUM
V-05	Primary user in local Administrators group	Identity & Auth	MEDIUM
V-06	Windows 10 22H2 (Build 19045) — end-of-support	Patch Mgmt	HIGH
V-07	Microsoft Office 2016 — end-of-support	Patch Mgmt	HIGH
V-08	Automatic workstation lock not enforced	Physical Sec	MEDIUM
V-09	AutoPlay enabled for removable media	Physical Sec	MEDIUM
V-10	BitLocker not configured on assessed volumes	Network/Endpoint	MEDIUM
2 REMEDIATION ACTIONS — The Treatment			
Priority	Remediation Action	Result	
HIGH	Set minimum password length to 12 characters	Length enforced	
HIGH	Account lockout: 5 attempts, 30-min duration	Brute-force blocked	
HIGH	Password history — 10 passwords	Reuse blocked	
HIGH	Required password for Faizan account	No blank passwords	
HIGH	OS/Office upgrade path flagged for IT	Risk tracked	
MEDIUM	Removed Faizan from Administrators group	Least privilege	
MEDIUM	Screen lock after 5-min inactivity	Physical risk reduced	
MEDIUM	Disabled AutoPlay for all removable media	Autorun blocked	
MEDIUM	BitLocker enabled on F: after backup	Data encrypted	
3 HARDENED VERIFICATION — The Proof			
Security Check	Before	After	Status
Authentication Policy	MinPwLen=0 · Lockout=Never · History=None	MinPwLen=12 · Lockout=5 · History=10	Hardened
Local Accounts	Faizan: PwRequired=False	Faizan: PwRequired=True	Hardened
Admin Membership	Administrator, Faizan	Administrator only	Hardened
Endpoint Protection	All True — already secure	All True — maintained	Verified ✓
Windows Firewall	All profiles = True	All profiles = True	Verified ✓
AutoPlay	DisableAutoplay = 0	DisableAutoplay = 1	Hardened
Workstation Lock	No enforced lock	300 sec (5 min)	Hardened
BitLocker (F:)	FullyDecrypted · Protection=Off	FullyEncrypted · Protection=On	Hardened
Controls Successfully Verified (Pre-Existing Secure State)			
✓ Administrator account — disabled		✓ Behavior Monitoring — enabled	
✓ Guest account — disabled		✓ UAC + Secure Desktop — enabled	
✓ Windows Defender — enabled		✓ Firewall: Domain/Private/Public — enabled	
✓ Real-time Protection — enabled		✓ Defender signatures — updated 03 Sep 2026	

Conclusion: Ten findings identified across 4 audit areas. Four High-severity and six Medium-severity findings were remediated. Core controls — Defender, UAC, Firewall — confirmed active. All verification checks passed. **Evidence:** S1-01 – S4-02.

Assessment: Baseline Completed
Remediation: Recommended / Applied
